Replacement of an Oven

10 / 10

I contacted Richard after reading good remarks on this Checktrade site. I wanted someone to replace my mother's oven, she lives in Hove I am in Surrey and was not sure who to call. Richard went to my mother's home the very next day even though he had other jobs on he did all he possible could to fit us in. He removed the old oven, went and sourced a new one and fitted it. The electrics also needed upgrading and so Richard organised that too. Nothing was too much trouble for him, which I appreciated as I was remote and needed to trust someone to do a good job efficiently as my mother had recently undergone surgery and was recuperating. Richard was a good communicator, efficient, friendly yet professional. Highly recommended. **Customer in Dorking, 8 December 2011**

New kitchen fitted

9.5 / 10

Very pleased - have asked Richard to come back to do another project. Nothing is too much trouble. Highly recommended **Customer in Worthing, 30 August 2011**

Kitchen installation

10 / 10

We were extremely pleased with the work done. Richard was always punctual and kept us informed on a daily basis. He was totally reliable and kept to schedule. He was a tidy worker. We wouldn't hesitate to use him again and would recommend him to others. **Customer in Worthing, 2 February 2011**

Removed old gas oven and housing; assembled new housing and installed new electric oven 9.8 / 10

He phoned and said that as he had finished his previous job early if he could come round that afternoon. He arrived, sized up the job, quoted the price, we agreed, and the job from start to finish took only 4 1/2 hours. It was a bit tricky as he had to work around the existing kitchen, pipes, cables etc. and a spur for the electrics was required as an electric oven had not been used at the property before. All in all a good, tidy job. Have got him lined up for a full refit on the near future. **Customer in Lancing, 1 February 2011**

Install new kitchen, tiling carpentry

10 / 10

An excellent choice only because of Checkatrade. **Customer in Hove, 19 September 2010**
