Shifted double glazed door frame to meet new floor height.

10 / 10

Classic problem - new kitchen meant laying new floor only to find that the double glazed back door fitted last year by Roy wouldn't open if we continued! Rapid inspection coupled with adjustment of door to its limits meant work could carry on. Permanent fix, matching reasonable quote, the following week saw door frame removed, modified and refitted. Perfect job, good to know that you can rely on local traders to provide true after sales support. **Customer in Godalming, 29 February 2012**
