### Most Recent Customer Feedback

#### Taking up crazy paving path that was breaking a damp proof course

10 / 10

He came up with a good suggestion on what needed doing and then did it in a tidy and methodical way. Chris always kept me informed of when he was coming, even to let me know he would be 5 mins late! He worked well and carefully and when the path was lifted he found an original red brick path underneath (intact) which meant that we didn't have to concrete and lay tiles. **Customer in Petersfield, 9 January 2012**

#### Rehanging a flue and making good brickwork

10 / 10

We had a wood burning stove installed and the installer bodged the brickwork and the flue. Therefore the wall was letting in rainwater. Chris identified the problem and even better fixed it quickly and without fuss. A very good find and will use again. Couldn't have been easier to deal with. **Customer in Haslemere, 24 December 2011**

#### Replaced 2 broken tiles and flashing

10 / 10

Excellent firm, good communications, explained the problems and how it was to be rectified. Came on time and the work was completed quickly and efficiently. Hope to use them again for internal work. Would highly recommend them. **Customer in Waterlooville, 20 December 2011**

#### Over garage extension

10 / 10

This was our first building project and Chris fully explained everything to us every step of the way. He helped improve our build by offering a technical solution to a problem we had which served to show his vast level of 'know-how'. Each member of his team is polite, punctual, helpful and effective. The project ran to schedule with each stage met when Chris said it would be. We are extremely happy with how things have gone and

will use Chris and Resimix for any further building work we undertake. **Customer in Waterloooville, 13 December 2011**

**Unblocking drain.**

10 / 10

Drainage problem solved quickly and for a reasonable price. Chris is very helpful and reliable. **Customer in Liphook, 20 October 2011**
