### Most Recent Customer Feedback

#### Kitchen sink and tap replaced

9.8 / 10

I bought a new sink and tap and booked John to remove the existing fittings and plumb in the new items - but I hadn't realised that the connectors weren't right for UK pipes. John solved the problem without any fuss. He did a very tidy job and as always gave great attention to detail. This is the third job John has done for us (previously 2 bathrooms) and I would definitely recommend him. **Customer in Poole, 16 May 2012**

#### Refurbish bathroom

10 / 10

John changed our bath for a shower fitted new toilet and sink units stripped out all old tiles and retiled top to bottom. Because the window was not central in the room and not square he had to knock out the plaster round the window and re-plaster to make it square so that the tiling looked good. We now have a bathroom to be proud of and all visitors are impressed with the quality. An exceptionally very good job. **Customer in Wareham, 22 February 2012**

#### Extra work needed to finish bathroom

10 / 10

John's work is always high quality. If there is a problem he will find a solution for it. John laid a wooden floor as a base for lino, fitted electric light and a wooden door for me. His prices are extremely fair and he will never overprice a job. I would recommend him to anyone. **Customer in Wareham, 21 February 2012**

#### Emergency call-out for fault on Central Heating system

10 / 10

Most conscientious. Faulty diversion valve located, dismantled and replaced. Very pleased with work done. Would recommend at any time. **Customer in Wareham, 3 February 2012**

#### En-suite bathroom - fit new shower, screen and tray, new radiator and lights. Also tiling, ceiling plaster and extractor fan.

9.8 / 10

We were pleased with Riva's work on our family bathroom so followed up with the en-suite. Once again John was very professional throughout and the quality of workmanship was very good. Extra work requested by us was fairly priced.

As before, John was very helpful in discussing ideas and providing practical solutions - thank you and well done!
