#### Advice on interior layout of flat 9.3 / 10

I found Susan to be very friendly and approachable and her advice and ideas on how best to use the space available to me in the flat very useful and she has certainly given me food for thought as well as helping me decide on the final layout.

#### whole house refurbishment. 9.8 / 10

We wanted our whole 4-bed house refurbished - walls knocking down, new wiring, new heating, plastering and decorating throughout and new kitchen, bathroom and flooring. Sue got the entire job done in 9 weeks which would have been utterly impossible to complete ourselves. She sorted discounts, found quality goods, dealt with the builders and workmen (the most amazing relief when things go wrong - as they always do!), gave us design advice, and came up with ideas we wouldn't have had for things like under floor heating and energy saving. She was also on site every day and available to talk to pretty much 24 hours a day. Can't recommend her more highly.
