#### Electrical work in study

10 / 10

I recently had some cabling work that needed tidying up - the work done exceeded my expectations as they came up with a solution that meant everything was clean, tidy and large parts hidden away. I've used Rotech before for bigger/more complex jobs than this one and would not even consider using any other company because the standard of work is, and always has been to the very highest standards. Also Keith and his assistant are prompt, polite and professional. Just as important they are also very reliable. **Customer in Brighton, 22 March 2012**
