### Most Recent Customer Feedback

#### Pressure relief valve changed and a service completed 10 / 10

I was advised of the work completed and shown the work and the parts that were changed and also advised of the parts of the service and form that had been completed. I would recommend him to all of my friends and family. **Customer in Portsmouth, 11 April 2012**

#### Excellent install of a new boiler, pump and filter. 10 / 10

An excellent job done and a call back done also with a positive result. **Customer in Waterlooville, 9 April 2012**

#### Remove old open vent boiler from Kitchen (Tanks in loft and Water Cylinder), install new Combi in loft and replace bathroom rad with towel rail 10 / 10

Had 3 quotes, all from local installers. Of the three, Steve showed good knowledge of all products available, including Bosch range that we'd preferred, all regulations that applied and even advised of issues with existing gas appliances. Of the quotes received (for what is quite a large investment), Steve's was the best overall; when considering his previous Check-A-Trade rating, this swung us in favour of selecting Steve to do the whole job. I am very impressed by Steve's work ethic, pricing principles and overall professionalism. Our house was left, clean and tidy with all holes filled and sealed and most importantly very warm! Steve and Ray did a terrific job between them and I would have no hesitation in recommending Steve Bell Heating Services in future. Thank you Steve and Ray! **Customer in Petersfield, 11 February 2012**

#### Gas Safety Certificate and change plastic pipe to copper 10 / 10

I required a gas safety certificate at very short notice. A non-compliance issue was found. He agreed to do the work at 8.30pm the next evening because I had a deadline. The job was easier than expected, so I was charged less than quoted. Excellent service would highly recommend. **Customer in Waterlooville, 24 January 2012**
