Replace bath tap washer.

7 / 10

Charged an hourly rate when tap washer replaced. Charged for 60 mins. Work although job only lasted 15 mins. Threatened with

small claims court when queried invoice. Not recommended. **Customer in Epsom, 26 March 2012**

Reply from Trader: The customer enquired about how much our rates were, we clearly explained our rates and the customer was more than happy with them at the time. The job was done in a professional and reliable manner. A call was received from the customer doubting the invoice, saying we should of only charged him for the time which we were there for (35min), even though our rates were clearly explained to him before we went ahead with the work. The customer advised me that he would leave a negative feedback if we did could reduce the invoice, we mentioned to the customer that if he would not pay the outstanding invoice legal proceedings would be started.

Repair of burst outside pipe

10 / 10

Stewart turned up within two hours of my phoning and did an excellent job outside on a freezing cold Sunday afternoon. In gaining access to the stopcock I had cracked a washing machine hose which he fixed the next day. Very friendly and efficient service **Customer in Worcester Park, 12 February 2012**

A new shower fitted in bathroom with pitched roof

9.8 / 10

We chose Stewart to fit our shower because he was polite, friendly and listened to what we wanted, understood that our budget was limited. During the install, we encountered a problem with getting an important part of the shower, this wasn't Stewart's fault, but he was able to come up with another solution that worked brilliantly. It did cost us a fraction more, but he worked extra time to get it done for us, so it was perfectly reasonable. The end result was utterly fantastic. On a day-to-day basis Stewart made sure that the house was clean when he left, and he made sure we were able to use the bathroom throughout. The shower works a treat and the end result is something we're really please with. I'll use this company again for any plumbing-related work I need doing, and I'm more than happy to suggest other people do too.
