Repairs to roof - replacement of rafters and roof tiles and repointing.

10 / 10

The initial work required was to reseal and repoint the roof tiles at one end of the house. The workmen discovered that two of the rafters were rotten and so needed to be replaced. Southern Roofing explained clearly the extra work required and why and so we agreed that the additional work should be done together with some repointing on the entire roof. The work was carried out as agreed and the workmen were punctual, polite and very tidy. The end result seems to be a very good job. **Customer in Tadworth, 5 April 2012**
