Build retaining wall and steps in steeply sloping garden

10 / 10

This was a complicated job requiring a lot of co-ordination between different trades e.g ground work, shuttering, concrete laying, bricklaying, paving and fencing. Everything worked like clockwork. We were very impressed with how hard everyone worked. We were able to discuss the work as it progressed and make changes as we went along. All our requests were acted upon and nothing was too much trouble. We are extremely pleased with the end result. **Customer in Battle, 29 November 2011**
