Replace broken roof slates

9.5 / 10

Steve turned up early the day after I rang him to give me a quote; and then came round the following morning to do the work. He rang during the job to advise that a few more slates had slipped and did I want them replaced - which I did. He quoted me a new price and stuck to that price. He was very flexible in terms of fitting in with me, very prompt and responsive, and from what I can see has done a very good job. I would have no hesitation in recommending him.

Rebedding and pointing of roof valley and replace broken tiles. Moss removal.

10 / 10

Mr. Smith responded quickly to my initial enquiry. He gave a breakdown of costs in his estimate. The work was completed approximately two and a half weeks later. Scaffolding was erected and removed at the agreed times and the roofing work was done quickly and efficiently. I was kept informed throughout and everyone involved was courteous. The roof looks very good after the removal of the moss.
