Reply from Trader: This was a re-point in of the rear elevation of a semi detached house. Before work commenced a large cover was used by us to minimise the dust settlements particularly to the ornamental pond. We were there for two days only and began work at 8.38 am each day working through until 4.30 pm. I have spoken to the customer since I received your notification of his scores and he says he is very happy with our work and would use us again and recommend us. I contacted him as I was concerned that he was not entirely satisfied with the workmanship or that we had left a mess however he was

The scores he gave us do not reflect his satisfaction.
