#### Instal power plus sockets and lighting to a remote garage 10 / 10

I am not a 'generous' scorer by inclination, but Switched Electrics earned the highest praise for this project. They clearly understood my requirements and provided a detailed, costed work schedule. They were always prompt and reliable, and when the electricity supplier (better remain nameless!) proved very awkward to deal with, Switched Electrics were resourceful and flexible in working around the admin problems this caused. Although my project was only a small one by their standards, I never felt that I was getting anything other than their full attention. I would not bother looking any further if I need an electrical contractor in future. **Customer in Portsmouth, 1 March 2012**
