Most Recent Customer Feedback

Carried out inspection and testing, renewed lighting circuits, replaced consumer unit, carried out earth bonding. 9.5 / 10

Very pleased with what was done, the manner it was done and the price we were charged. The electricians were very helpful and friendly and were extremely fair and reasonable in their pricing. Based on our experience we would recommend them to others. **Customer in Horley, 5 March 2012**

Replacement of fuse board with RCD protected consumer unit 10 / 10

The whole job was carried out in a very efficient and professional manner, from initial enquiry to receipt of estimate and completion of the work. The invoice price was actually lower than the estimate. We would not hesitate to use TG Electrical again and would certainly recommend them to others. **Customer in Horsham, 23 November 2011**

Electrical work in bathroom refurbishment 10 / 10

Ian arrived at time stated and was very clean and tidy throughout the job using dust sheets and removing shoes being very respectful of the property. The work was carried out with minimum disruption and to a high standard. Ian was very knowledgeable and informative throughout. I will definitely use T G Electrical for future work. **Customer in Pulborough, 15 November 2011**

Wire in 3 ceiling lights, replace old unswitched sockets, replace original fuse box with modern circuit breaker type unit. 10 / 10

Very responsive to my initial enquiring by phone and email. They turned up exactly on time on the agreed day, worked steadily and accommodated a last minute change when I realised I needed another socket replacing. Tidied up well, always polite, very pleasant company while they were here. I was asking questions about the details of the work and they were very clear explaining what they were doing. During the system check stage before starting work they discovered that the main ground connection needed upgrading. This was charged at a very reasonable price, but the

cost of the inspection itself was reduced by that same amount. I'd totally recommend TG Electrical and will certainly be going back to them as my first point of call whenever I need any more domestic electrical work doing. **Customer in Horsham, 19 October 2011**

Periodic electrical testing and portable appliance testing.

10 / 10

Both Ian and Martin of TG Electrical provide a thoroughly professional service. They were very obliging and flexible regarding convenient times for the testing work. I have no hesitation in recommending this company. **Customer in Horsham, 15 October 2011**
