### Most Recent Customer Feedback

#### Facias, soffits and guttering

10 / 10

Andy was very polite, and when he came to our home he explained everything in detail and did not miss anything out. The work carried out has been done to a very high standard and has transformed our home. We would have no hesitation in recommending The Fascia Division to anybody. The 2 chaps who carried out the work were very polite, and they cleaned up everything, and left the garden as they found it. All in all The Fascia Division is a very professional company and do an excellent job. Thank you Fascia Division. **Customer in Salisbury, 23 January 2012**

#### Replacement Fascia, Soffits and Guttering

10 / 10

Andy came out and was very open to our thoughts on having something in keeping with the age of the property. A day or two later we had the full quote and specifics after he had spoken to his design team to arrange something that matched our requirements. The team turned up exactly at the time specified and worked all day in the rain. Whilst the job took slightly longer than predicted the weather and daylight available was to blame. The finished job is fantastic and far exceeded our initial expectations. We have a Victorian property and unless you are stood close up you wouldn't be able to tell they had been replaced. The team have done a fantastic job of matching it to the neighbouring properties and to be honest we couldn't be happier. **Customer in Southampton, 21 December 2011**

#### Replace fascia and a flat roof

10 / 10

Excellent from start to finish. I have spent a long time looking for a company to do this job properly as there are too many cut price merchants not using all the ventilation and protection components required for a professional job. No hard sell or silly discounts, just an honest appraisal of what I wanted and a price that would have been the same next week. Not even a deposit taken - they knew I would be pleased with the job and pay up on completion which I was happy to do. A great pair of workers, neat, tidy, well equipped and professional in all respects, despite working in the cold and wet. A courtesy call from the boss within half an hour of them leaving to make sure I was happy - I was and am. **Customer in Midhurst, 16 December 2011**

**Fascias, Soffits, Guttering and Cladding on House + Garage**

10 / 10

From starting with meeting Andy and having a discussion about the options available for our house and garage including how The Fascia Division works during the installation, the quotation for the work to be done, the time in which the work could start and be completed, the installers friendly and tidy way of working and (best of all) the end result - You can't fault this company! I'd highly recommend them to anyone looking for a professional service. You won't be disappointed and if you are on ANY point I feel confident that The Fascia Division will address your concerns without any quibbles! In Summary - Want Fascia's you can be proud of? - Go to The Fascia Division! **Customer in Basingstoke, 25 November 2011**

**Fascias were fitted onto two flat roofs.**

10 / 10

We were extremely pleased with the design and the fitting of it. The fitters were very professional, friendly and hard working. They communicated any obstacles which needed to be overcome, and perhaps most importantly, they ensured that we were satisfied with the overall design before actually carrying it out. Should we require the services of this company again, there would be no hesitation before our contacting them. All in all, some excellent work was completed on our property. **Customer in Birmingham, 24 October 2011**
