Replaced junction box contact and fixed outside junction box short

10 / 10

Our sewerage pump junction box was humming and vibrating. Tony arrived as planned in the morning and diagnosed a faulty contact. He returned in the afternoon and changed the contact but the problem still existed. He did further testing and established that there was also a short in the outside box. He worked in the rain and the mud to fix this and still only charged a very reasonable amount. Friendly, excellent service. I shall certainly use Tony again. **Customer in Southampton, 29 December 2009**
