Laying brick extension to my driveway

10 / 10

I engaged this company in 2006 to extend my driveway to increase parking facilities and enable me to complete a three point turn so I always drove out onto the road for safety. I decided to further extend this facility and had no hesitation in engaging them to do the work for me. The original work is still fine, the extension blends in perfectly, no mess, completed very promptly and on time, probably not the cheapest option but certainly in my opinion the best. I must add that in 2006 they also did a lot of very fine work in my rear garden (relaid a brick patio, and did other very fine brick paving). It is a pleasure to give a good feed back. **Customer in Deal, 4 May 2012**
