First class in all aspects, thank you. **Customer in Staines, 5 October 2011**

400sq-mts of drive re-laid in tarmac

9.3 / 10

The work that UK Surfacing carried out for us was to dig out and remove from site some 30 to 40 cu mts of clay, lay land drains, back fill with crushed concrete and top with Tarmac standard for car park, followed by digging out remaining soft area of drive way then excavating out to 400cm of the remaining drive and relaying 400 sq-mts plus extra gullies, all the above was carried with an on site care unit in daily use as well as ST AUGUSTINES Parish Church in use, All this work was to the highest standard. We found this company to be excellent and would highly recommend them. **Customer in Twickenham, 10 September 2011**

Replacing and enlarging tarmac driveway
