### Most Recent Customer Feedback

#### Investigate why Freeview TV not working properly

9.8 / 10

I called William Monday afternoon and he called me back and arranged to come round the following afternoon. He was on time and quietly went about looking for the problem. At no time did he try to deceive or sell anything that was not required. I just needed a coaxial plug fitted in the loft as our aerial lead had not been provided with one following some recent building work. I very much appreciated an honest trades person who was not out to rip me off with things I didn't need. Thanks **Customer in Ashtead, 15 May 2012**

#### Check aerial and install 4 TV points

10 / 10

Great work, helpful, considerate, tidy, good workmanship. He also supplied on my request a HTML lead and sorted out my sound system and helped me with the set up of my new TV within his estimate. Big recommendation!! **Customer in East Molesey, 26 April 2012**

#### Move Satellite Dish during building works and Install TV Ariel in loft conversion

10 / 10

Excellent as always. **Customer in New Malden, 31 January 2012**

#### Installed TV aerial on roof and fitted 4 TV outlets

10 / 10

I am fussy and to impress me Willie has to be good. Called on the Sunday, quoted on the Monday and fitted on the Tuesday. Weather was rubbish - pouring rain and windy - but he still got the job done as promised. Reception is first class through the whole the house and he even ran a spare point for the extension which is under construction as no extra cost. I costed the materials as I was considering doing it myself but could not buy the lashing kit, mast, coax for the same price that Willie charged to do the whole installation. If this is the first review you read stop here and book Willie, you will not be disappointed. **Customer in Epsom, 19 December 2011**

**Installation of Dish and free sat box**

10 / 10

He was generally quite helpful, didn't rush us, and appears to have done a reasonable job at a reasonable price. The only adverse comment I would make is that we were certain there was alcohol on his breath. He was most certainly not drunk, nor rude, nor aggressive in any way shape or form. I just felt a little concerned for his safety climbing up ladders if he had been in the pub. At the end of the day he did a good job, so I suppose it is his business and not mine, but had he fallen and injured himself I might have taken a different view. **Customer in Leatherhead, 17 October 2011**
