### Most Recent Customer Feedback

#### Replacing lights in the kitchen ceiling 9.3 / 10

Quickly and expertly done with helpful briefings on such things as changing light bulbs. The house was left very clean and tidy. **Customer in Tadworth, 25 May 2012**

#### Diagnosed problem with ceiling light that had stopped working and fixed it 10 / 10

David diagnosed the problem with my ceiling light when I had attempted to replace it with a new one. He solved the problem in minutes and completed the job explaining in simple terms where I went wrong. He provided a fast efficient service and I would not hesitate recommending him. **Customer in Worcester Park, 22 May 2012**

#### Electrical testing 10 / 10

Would certainly use again in the future - many thanks for coming out so promptly. **Customer in Epsom, 14 May 2012**

#### Check wiring on bathroom light 10 / 10

David responded same day to my Mum's call in regard to her bathroom light which appeared to have a wiring problem after trying to change the bulb - two bulbs immediately blew when installed. David quickly realized it was the old bulbs that were faulty and not the wiring. He replaced the bulb with one that worked and did not charge my Mum anything, no call out and refused my mum's offer of 'petrol money'. She got David's card and would not hesitate to call him again or recommend him - which she has already done to many of her friends, commenting that he was very friendly, polite, kind and obviously knew 'his business'. I would certainly call David for any electrical work! **Customer in London, 23 April 2012**

#### Changed a dimmer switch as wall lights were not working 10 / 10

He was extremely polite and friendly. He sorted the problem really quickly leaving no mess at all. I would highly recommend Mr Williams to anyone wanting an electrician. **Customer in Worcester Park, 19 April 2012**
