**Fridge freezing contents.** 10 / 10  
My fridge was freezing all the contents in it. I thought the thermostat or something of that nature needed replacing. It turned out that when I had cleaned it a few week previous I had accidentally turned the temperature dial to the top setting. Glen was quite apologetic that he had to charge me the call out fee as was not really a problem and a really simple solution. Glen seems the old school type of repair man, one you can trust. I will recommend to friends. **Customer in Basildon, 5 March 2018**
