#### Key cut from a previous cut key. 10 / 10

I had lost a key which meant the only one I had left was a rather bent and bruised poor quality Timpsons key I had cut as a spare years ago. Given the bend in it I was concerned that it would be difficult if not impossible to make a copy of it - I asked Locks express what they could do and I was told it might prove difficult and if it couldn't be done it would mean a whole new lock and keys. Which would be rather more costly than a key cut. I was expecting a call back to say that, however I was delighted to hear that Dean had managed it and the new key fit perfectly. Now that's honesty! **Customer in Kendal, 12 August 2017**

#### Fresh fit mortice sash lock and handle SLT. 9.25 / 10
