Originally came to change washers on all taps, but they were so corroded could not get them apart. So returned several days later when we had purchased new taps and fitted them with no problems. **Customer in Southampton, 22 October 2018**

Luke arrived on the dot and got on with the work, quickly and professionally, but still had time for friendly chat. He finished in less than an hour. We now have a super new tap with which we're extremely pleased. **Customer in Fareham, 15 October 2018**
